

The Scientific Method: Ocean Acidification

Purpose: We are doing our experiment today to

Hypothesis: If we soak an egg in vinegar for several days, then

the egg will_____

Daily Observations:

VINEGAR EGG

Days	Color	Feel	Other Observations
Day 1			
Day 2			
Day 3			

WATER EGG

Days	Color	Feel	Other Observations
Day 1			
Day 2			
Day 3			

Conclusion: Our egg became_____.

I think that if ocean acidification continues to happen, corals and shellfish will_____.
